Subject: Temporary Tent installation at 1095 Dunford Way

Dear Mr. Boone:

This correspondence is provided to acknowledge the recent removal of the temporary tent covering the Sabre Cats practice field. Thank you for meeting the removal schedule.

You will recall that the use of a "temporary" application for the tent was intended as a test case to determine what impacts, if any, might result from the installation. The Community Development Department received several complaints about the installation related to aesthetics and noise. As a consequence of impacts to the neighborhood, a temporary permit will not be issued for the installation of the tent in the future. A Use Permit application will be required to be processed and approved prior to future installation of the tent covering the practice field. The processing of a Use Permit application may take from 30 to 90 days depending of related issues. Please be sure to begin the application process early if you intend to pursue the installation of the tent in the future. Please note that a Use Permit is a discretionary application and may be approved or denied. If approved, a Building Permit will be required.

A Use Permit application and related materials are attached for your convenience. Should you have any questions on this matter, please feel free to contact me or Fred Bell, Principal Planner at (408) 730-7443.

Sincerely;

A handwritten signature in dark ink, appearing to read "Fred Bell".
